Valley Blue putty

Description & Features:

Valley Blue putty is a ready for use putty, based on high quality acrylic co-polymer resins which have excellent filling properties without shrinkage or cracking even at high film thickness, with good adherence to smooth substrate & easy to sand. {Conforms to Egyptian standard specification No. 6623/2008}

Recommended use:
Recommended for internal & external use on all new surfaces such as concrete surfaces, cement and wood surfaces ..... etc

Technical Specifications:
Color White
Thinner Ready for use
Flash Point Non Flammable
*Spreading rate M2/kg. (2-3 M2/kg
Theoretically)
*The actual Spreading rate depends on many factors such as porosity of substrate, surface preparation & application means.

Usage Condition:
Atmosphere must be free from dust during use and drying, surface temperature should not be less than 5 C.
